Austria's harmonious answer to the great anglo- american style female classic pop icons, Magdalena Piatti's songs are sensitive, emanate great sentimentality and thanks to their powerful verve delivered by a fine voice never fail to awaken it's listener's emotions.

Gentle waves of delicate piano and heavenly string arrangements do their part to create a whole far greater than the sum of it's parts. - as quoted by „the gap“.

Her debut album „Broken Wings“ reflects the life, passion and authenticity of the highly talented Singer/Songwriter and is the culmination of her work so far, having taken her first steps into composing at the tender age of 11.

The twelve songs included are defined by the piano playing and exquisite voice of Magdalena Piatti, capturing the audience from the first moment. The melodies flow easily, with strings adding a magical , fragile quality to these enchanting pop songs.

„I would describe my music as pop with a certain depth; as pieces meant to entice the listener into dreaming or contemplation“, Piatti remarks on her work. „It is difficult to describe the severe fragility of powerful emotions in words; much easier to set it to music!“ The balancing act between searching and arriving pervades the entire album, the single „It's too late“ in particular is about emotional moments in life that I imagine everyone has went through. Will these „Broken Wings“ grow back together- and carry her songs to far away lands? From Loosdorf (Lower Austria) into the whole wide world, for instance?

It was there namely, in the heart of Austria's wine district, that Magdalena Piatti began singing as a child. Piano lessons as a youth were followed up by graduating from the Vienna conservatory with a degree in Piano and Jazz singing. This highly intensive phase of involving herself in music saw the creation of her first original songs. From 2003 on, Magdalena Piatti has been active as a Singer/Songwriter, her live performances becoming a fixture of the Austrian music scene. Not just Austria has taken notice however. In the last two years her broken wings have taken their creator beyond her home countries' borders, leading to concerts in Germany and the Netherlands. How far will the journey go? We look forward to seeing... !
